

A comprehensive selection of transducers

Curved array transducers

C2-5

- Application : abdomen, obstetrics, gynecology
- Field of view : 47.7°

C2-8

- Application : abdomen, obstetrics, gynecology
- Field of view : 68.17°

CF4-9

- Application : abdomen, vascular, emergency, pediatric
- Field of view : 92°

Linear array transducers

LN5-12

- Application : musculoskeletal, small parts, vascular, anesthesia
- Field of view : 38.1mm

LS6-15

- Application : musculoskeletal, anesthesia
- Field of view : 25.6mm

Endocavity transducer

EVN4-9

- Application : obstetrics, gynecology, urology
- Field of view : 148°

Phased array transducers

P4-12

- Application : abdomen, cardiac, vascular
- Field of view : 90°

PN2-4

- Application : abdomen, cardiac, TCD, emergency
- Field of view : 90°
